

TANTALUM CAPACITOR -CASE SIZE B BOARD ADAPTER

Board pcb adapter for a SIL serial in line 4 pins connector. Intended for breadboard testing of prototypes with SMD B-TANTALUM CAPACITORS (size B type).

Is compatible with several packages as: SOD80, SOD123, SOD123F, SOD128, minimelf, quadromelf, or 1206.

Our pcb breadboard adapter is compatible with a SIL-4 connector:

Pitch Spacing:	2.54mm
Board Material:	FR4 Epoxy Fibreglass
Hole Diameter:	0,95 mm
Board Height:	11mm
Board Width:	11mm
Board Thickness:	1.5mm
Copper Coating :	chem. Niquel Gold
Copper Thickness:	35µm
No. of Copper Sides:	2
Solder mask	yes
ROHS	Conform

Adapter ref: 02573A

CAD view : Simulation of the SMD packages that can be used in this adapter, the adapter pcb and a 10mm rule, all in the same scale.

Applications of this adapter: small pcb board for hand soldering of SMD prototypes.

This adapter is for tantalum size B, but is compatible with the following packages: capacitors and also with **SOD123**, **SOD123F**, **SOD128**, **micromelf** or **1206** packages.
