

TO263 ADAPTER

Breadboard adapter for TO263 (3+1 pin) devices:

PCB dimensions: 21,5 x 21,5 x 1,5 mm

Our reference: MULT05

Product description: Breadboard adapter for TO263 package with 3+1 pins , for example power regulators and others. Accept 4x 0805 devices in the same board
Accept row connectors with 2,54 mm pitch, breadboard compatible.

Technology: Plated through FR4 pcb, with solder mask to avoid shorts between pads when hand soldered, as shown in photo. All holes are plated through.
The surface of pads in this adapter, is chemical gold plated.

PCB contour: The pcb contour is milled.

Hand soldering: should be used a liquid flux, for best soldering to the gold surface.

Handling: is important before soldering, to avoid fingerprints over the gold plated surface of the pads.
